

SSPOA Community Volunteer Committees

SSPOA currently has three active volunteer committees:

*Architectural Control Committee (Currently filled)

*Boat Ramp Committee (Currently filled)

*Pool Committee monitors equipment, cleans bathrooms, empties trash cans when needed, cleans pool when needed, and checks chemical levels daily. You can choose to help in the morning for pool opening or in the evening at pool closing. No one works alone, you will have a partner working with you. We will meet before the pool opens for summer and go over everything and get a calendar fixed so you will know your weeks of volunteering for the summer. It's easy and fun and we would love to have you join us. (Accepting volunteers)

SSPOA wants to expand our community involvement with two new volunteer committees aimed at bringing our neighbors closer together:

* Social Committee which would plan, organize and execute various social events and activities to foster positive relationships and spirit of community. (Accepting volunteers)

* Helping Hands Committee which would offer help to a neighbor(s) in the community who may have encountered unexpected difficulties, or in need of assistance with residential maintenance. (Accepting volunteers)

Community engagement plays a crucial role in overall community success. Your participation as a volunteer can make a real difference and helps to make our community a better place.
